

**Some of the things that Year 6 like best about our school are...**

The I.C.T suite and the whiteboards.

Our work is the right level for us and teachers help us with it.

Our school feels safe, and our teachers are happy.

I really like the new climbing equipment.

I like how our teachers are always helpful and help us when we have problems.

Celebration assembly and being the 'Citizen of the Week'

I like the way that red cards are handled fairly.

We have an excellent range of clubs.

It is brilliant that we are able to play football at playtime.

If you do something out of school like judo, then the adults share it with

Activity Week and the trips that we get to go on.

**Year 6**

**Some of the things that Year 6 would most like to change ...**

- A water fountain on the playground would be a good idea.
- We would like the dinner ladies to be fairer.
- Laptops that we can use in our classrooms every day.
- Longer PE and games lessons.
- An afternoon playtime for all the children in Upper School.
- Less assembly time each week.
- Hotter water in the toilets and classrooms.
- A trim trail on the school field.
- Less homework.
- Touch screen computers
- Tennis Club in the summer

What do you think?
